People generally like spending their free time outdoors. Unfortunately pollution of the air and water makes it less enjoyable and healthy. Moreover, there is a lot of litter in parks, streets and forests. That's why it is really important to keep our environment clean. It can help us to live a healthier life and have a good time outdoors in beautiful and clean places.

If you want to help to save the environment you should be environmentally friendly. For example, you should always sort your litter. Don't forget to put waste cans, paper and plastic in special containers. It doesn't take much time but it is very important for the environment because they can be recycled and used once more. It is also a good idea to buy products made of recycled paper, plastic or glass. They're good, useful and environmentally friendly.

Moreover, you mustn't drop litter in public places. When you go to a **park** or a forest put your litter in special containers or take it back home and throw away there. You should also take part in 'Clean Up the World' projects. It's your very personal contribution to keep your city, town or village clean.
